# cleanLIFE™ Program

*An anti-vice and anti-addiction program using BEwell Science*

**Brought to the Philippines by Master Del Pe  
and his MDP Foundation, USA**

[www.masterdelpe.com](http://www.masterdelpe.com)

# INTRODUCTION

The Program: **cleanLIFE™ Program**

Brought By: **The MDP Foundation, USA**

Founder: **Master Del Pe**

Collaborator: **Mayor Abraham B. Akilit,  
and Bauko LGU**

When: **November – December 2016**

Where: **Bauko, Mountain Province**

## An Introduction to cleanLIFE™ Program

cleanLIFE™ is an international program designed by Master Del Pe, which is implemented by his non-profit organization, MDP Foundation to help heal people with vices and addictions, so that they can stay out of trouble and have healthier, productive lives. Master Del Pe, an American citizen who just got back his Philippine dual citizenship, returned to the Philippines in July 2015, to contribute back to his country of birth and to the new government. So, he brought with him all his strategies, tool-kits and an arsenal of knowledge for the enhancement of the Filipino culture in order for the Philippines to become one of the most important contributing nations of the future. Master Del Pe believes in the capacity of the Filipino and the new Philippines to become a global player and an international game changer to build a new better world.

In the Philippines, Master Del Pe, in collaboration with the Mayor of Bauko, Mountain Province, Dr. Abraham B. Akilit, launched the cleanLIFE program to help rehabilitate the 168 drug users and drug pushers who have surrendered to the Philippine National Police in response to President Duterte's "War on Drugs". Mayor Akilit and the Bauko Local Government Unit (LGU) selected 58 of these surrenderees in a pre-qualifying profiling from October 11 to November 6, 2016. Master Del Pe, the designer of the cleanLIFE Program gave an orientation to the selected group and started the first healing and training on November 7, 2016. The last session of the cleanLIFE program's first phase was held on December 19, 2016. Only 54 of the 58 participants successfully finished the cleanLIFE curriculum. The official graduation formalities are targeted to be on January 12, 2017 depending on the confirmation of some VIPs who will attend as guest speakers at the event. While we are waiting for the graduation ceremony, many of the participants may have gone back to their families and careers to experience their re-entry into their social roles. Those without work have been interviewed by employers for placement. While we were doing our last cleanLIFE session, Master Del Pe invited some potential employers to interview the jobless surrenderees as well. The employers were amazed by their performance, new attitude and vitality to such an extent that at least 15 participants were accepted to be hired on the spot when employers saw the positive outlook and vigor of the surrenderees after the last healing and rejuvenation session. All the efforts of 2 months have paid off. This is the real graduation and the proof of cleanLIFE™'s effectiveness and efficiency. Master Del Pe designed cleanLIFE to not only focus on the de-addiction process as the finished line but also the employability advantage and the positive change in the drug addicts' inner values and character.

## **cleanLIFE™ Program started in Houston, Texas, USA through the MDP Foundation**

The cleanLIFE™ Project was launched about 12 years ago in Houston, Texas USA by the cleanLIFE teams of specialists that Master Del Pe, a world expert on energy healing science and the founder of the MDP Foundation had trained. The MDP Foundation is a non-profit and tax exempt (501(c) 3) organization in the USA that has a counterpart MDP Foundation branch in India and does many charitable programs around the world. The foundation started to train and hire trainers and healing science specialists in the Philippines in 2011, and worked extensively in its transformative projects for educators, the elderly, families, children, youth and with other non-profit organizations in the Philippines including the Jollibee Foundation and Seagull Foundation.

One of the expertise of Master Del Pe, the designer of the cleanLIFE program, is Energy Medicine, sometimes called Energy Healing Science. He holds more than 27 intellectual properties and copyrights in this field. Master Del Pe has been successfully healing drug addicts, alcoholics, smokers, gamblers, internet addicts, sex addicts and other severe compulsive behaviors for over 29 years in more than 45 countries. Sometimes he calls the cleanLife Program “Healing Vices and their Side-Effects” because his strategy does not only end when the client quits the addiction or obsessive behavior, but also includes healing its negative side-effects. In fact, Master Del Pe has scaled up the program to build the new character and attitudes of clients to be able to perform an effective re-entry into their family or career life.

MDP Foundation has successfully rehabilitated many women convicts who are drug addicts in Harris County Department of Corrections Jail in Houston, Texas in 2013 and helped parolees stay out of trouble. cleanLIFE program specializes not only in fast healing of the addictive behavior but the prevention of relapse and withdrawal symptoms that create struggle for the addicts who quit their substance abuse. This is the most challenging part for any drug therapist and psychologist. The success of the treatment can be measured by the rate of relapse and removal of negative side-effects.

The MDP Foundation, India has also carried out projects at Tihar Jail in New Delhi, which is inhabited by the most notorious convicts and is the largest prison complex in South Asia. Master Del Pe and his teams of cleanLIFE and harmonyLIFE specialists have trained 600 convicts from different religions and castes. Most of the resistance of convicts and drug addicts come from their beliefs. Many of the jails and rehabilitation institutions in the United States and India employ either Christian or Hindu Religious approaches. But, many times the addicts have different religions and cultural backgrounds. So, there is a gap between the rehabilitator, the modality and the patient. For this reason, Master Del Pe designed the cleanLIFE Program to be universal, non-religious, non-cultural and non-denominational, in order to be acceptable by all.

## What does **cleanLIFE™** expect to deliver?

cleanLIFE, as the label dictates, will clean and rehabilitate the drug addict, alcoholic, smoker, gambler, sex addict or even other people with vices from the side-effects of the addiction faster than the available modalities of today. It is done by first healing the compulsive and obsessive behavior, then eliminating the withdrawal symptoms and triggers which cause relapse. While in the process of healing for 1.5 to 2 months, the other negative side-effects can also be eliminated in the healing process.

The use of the Energy Medicine modality registered in the USA by Master Del Pe, known as BEwell science is the main strategy. With the healing techniques, the rapid development of mental will-power and physical vitality are done. Past emotional issues of the person are also healed through breathing techniques, visualization, memory reprogramming and deep meditations to ensure inner alignment. A combination of these techniques brings its own unique sequence to create a consciousness synergy and positive changes in the personality at a super-fast rate. The heart and emotional intelligence are also awakened to install the conscience for better relationship-building and discernment in decision-making.

A big part of this modality is character building and behavioral modification strategy to build the personality of the client, so they have a better chance to be employable if they are not working, or to hone new psychological attitudes to re-enter as a reformed person into their families, workplace or communities. Some have to regain the trust of many people who were hurt by them. cleanLIFE is expected to deliver these positive results at a record velocity as compared to existing de-addiction modalities.

## **cleanLIFE™** is derived from the healing modality, **BEwell Science™**

BEwell Science (Energy Medicine Strategy) is a no-touch, drugless, painless and fast method which employs a synergy of healing by extracting toxic energy using the power of the hands guided by the mind and followed by the projection of healing vibrations of different colors which are applied to the different parts of the body and bioplasmic energy field called the human aura. This technique is scientific and procedural, because it uses the diagnosis of the medical doctor or health care giver and the knowledge of the physical anatomy to detect and realign abnormalities in a person's health, including psychological and psycho-spiritual issues. This technique also involves healing the past of the person and empowering the future. It is comprehensive and can be complementarily applied with medical intervention. That is why, Master Del Pe sometimes declares it as Complementary Medicine. It can also stand on its own in the absence of any medical intervention, so it can be regarded as alternative medicine. It works even where medicine stops to be helpful, as in the case of many medical non-responders.

## **cleanLIFE™ and BEwell Science™ Healing Modality even work on Multi-addictions and Non-Medical Responders!**

cleanLIFE works best where traditional solutions do not apply, such as in the case of most addicts, because their problem is not just one addictions but usually multi-addictions. Many drug addicts can also be taking heavy doses of alcohol and smoking cigarettes intensively, or they can also be sex offenders or abusers in a relationship. BEwell Science through cleanLIFE is designed to deal with multi-addictions and their inner and outer causes of addictions readily, unlike traditional methods and other healing modalities that require many specialists and personnel to deal with different ramifications of the client's health challenges. The traditional rehabilitation as such becomes costly and time consuming.

Most solutions and medical approaches are also designed to serve a one-patient-at-a-time, which can be almost impossible for massive group rehabilitation like the hundreds of thousands of surrenderees in the Philippines. Other solutions can be superficial by just providing sports and normal exercises to motivate the addicts to divert their attention to something else without removing the psychological triggers of the addiction. Again, the challenge of a religious approach is that many patients are not religious or devotional type personalities, or they might follow different religions or beliefs than the chaplain or spiritual leader who is conducting the rehabilitation effort.

cleanLIFE has been created with all these issues and problems in mind. Master Del Pe, author of the 8 Types of Leaders, has also applied a universal approach by looking at the 8 types of addicts and how to serve them with diversity. There are patients who need will-power and discipline more than emotional or love stimulations. Some also respond better to mental motivation or philosophy rather than a forceful or loving approach. The BEwell Science modality and the cleanLIFE Program are geared to deal with the most complex patients, including those with the side-effects of severe paranoia, hallucinations and violent tendencies, as the teams have already worked on healing convicts and drug addicts in the jails of USA and India.

### **How did cleanLIFE™ perform in the new government program for the surrenderees?**

On October 11, 2016 while other national solutions were being considered and Philippine rehabilitation centers were being formed, Master Del Pe and his cleanLIFE team donated a pro-bono service to the municipality of Bauko, Mountain Province in collaboration with the office of the Mayor and the Local Government Unit. While working hand in hand with the Municipal Department Of Social Welfare and Development (MDSWD), the Local governmental Unit's Officers (LGU), and the Municipal Philippine National Police (PNP), the cleanLIFE Project lasted for 2 months and has been recently concluded with the blood tests of the participants and Master Del Pe submitting his report to the Bauko LGU and Mayor Dr.

Abraham B. Akilit. 54 surrenderees completed this program which culminated with remarkable results of 100% clear-passing of drug tests, negligible to no withdrawal symptoms, unprecedented improvement in the psychological and physical health of the participants and a heartwarming transformation of the characters and personalities of the surrendered drug users and pushers. (Detailed results are in the following section). An official graduation day with VIPs has been organized by the Bauko LGU and mandated by the Mayor of Bauko to be scheduled on January 12, 2017. The families and friends of the participating surrenderees will be invited for this event, which may be the first successful official rehabilitation project in the Philippines, sanctioned by the LGU with a partner from the private sector.

### **How did Master Del Pe design the Philippine-style cleanLIFE™ Project as a sure-fire strategy to help people with addiction and vices en masse?**

Most of the traditionally effective programs that manage addictions are done via one-on-one counselling and sometimes in small groups. Side-effects like hallucinations and paranoia are tackled through pharmacological interventions using other medical drugs. Some are through electric shocks.

cleanLIFE Project applied to the Philippine government's initiative, the Drug Rehabilitation Program for Surrenderees has been modified to manage the healing and recovery process to be done in bigger groups and at a fast pace to handle the bulk of surrenderees waiting for rehabilitation.

This cutting-edge strategy focuses not only on the de-addiction but also on training the drug addicts to have character modification and training with new life skills, so that they can be employable easily after re-entry and sustain their livelihood or careers without the negative side-effects of drug use. Another unique benefit of this method is the reduction or total elimination of other associated vices and negative behaviors that come with the drug addict.

*The program itself was designed by Master Del Pe in 2 major Phases and 3 Schemes to simultaneously rehabilitate mild, moderate and high risk cases of drug addiction, while training and certifying new trainers and specialists to expand their services. While the first phase is primarily concerned with healing the vices and eliminating their side effects, fighting withdrawal symptoms, and healing the triggers and tendencies of relapse, the second phase additionally provides the tools and strategies for developing proper attitude and character. Training in life skills, livelihood skills for employment, coping and survival skills, and special skill sets for business, entrepreneurship, arts etc. are optional but seamlessly interwoven into the fabric of the program as necessary.*

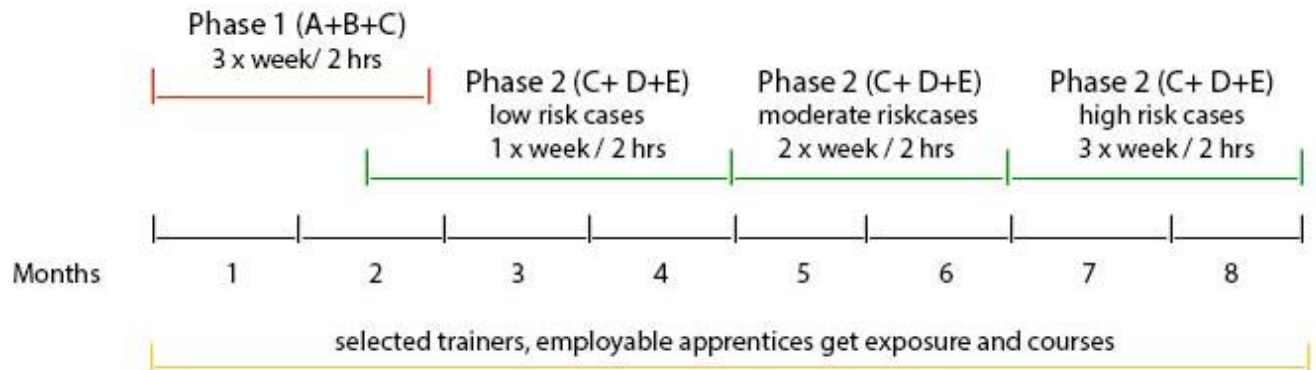

The cleanLIFE program aims to rapidly rehabilitate surrendered drug users and drug pushers, in batches or groups to become productive citizens by meeting the goals defined as follows:

## Program goals

- A. Heal addictive vices and eliminate their side effects
- B. Fight withdrawal symptoms and heal relapses
- C. Equip the surrenderees with stronger will-power, mental focus and discipline
- D. Develop proper attitude and character in them
- E. Train them in life skills
  - 1. Coping and survival skills
  - 2. Livelihood skills to get employed
    - a. Interpersonal and communication skills
    - b. White or blue collar job skills
    - c. Special skill sets: business, entrepreneurship, art, music etc.

optional

While items A + B + C are covered under Phase 1, Items D + E are additionally included in Phase 2.

# cleanLIFE™ Project

IN BAUKO, MOUNTAIN PROVINCE

(November 9 – December 19 2016)

## THE RESULTS & COLLABORATING TEAMS

## The Results in Bauko, Mountain Province

Results of medical tests and the comprehensive cleanLIFE reports are confidential and not included here, but can be shared upon a need-to-know basis. For general results, the 54 surrendered drug users and pushers passed the blood test and the cleanLIFE curriculum evaluation beyond the Bauko LGU's expectation, with the following details:

### Summary of Key Findings:

1. **100%** of the participants did not consume drugs for the duration of the program, as self-reported and validated by a DOH accredited blood-test.
2. **Negligible to minimal** withdrawal symptoms were experienced by the participants.
3. **95%** participants experienced more than significant improvement in their overall health and lifestyle condition.
4. **98%** participants experienced more than significant improvement in their overall psychological well-being.
5. **Significant positive changes experienced by the participants.**
  - ✓ **100%** of the participants noted that they experienced reduced cravings for drugs
  - ✓ **100%** of the participants noted that they were able to reduce or stop taking drugs
  - ✓ **60%** of the participants noted that they were able to reduce or stop taking other addictive substances
  - ✓ **100%** of the participants noted that they experienced improvement in the quality of their relationships
  - ✓ **100%** of the participants noted that they experienced better emotional stability
  - ✓ **100%** of the participants noted that they experienced more positive thoughts
  - ✓ **100%** of the participants noted that they experienced better physical strength and vitality

- ✓ **100%** of the participants noted that their values and character had improved
- 6. **100%** of the participants felt more prepared to go back to their regular life and overcome their addiction.
- 7. **98%** would recommend the cleanLIFE program to any other drug users and pushers
- 8. **No incidences** of violence or aggressive behavior were noted for the entire duration of the cleanLIFE program.
- 9. **27%** gained new employment immediately after graduating the cleanLIFE Program.

## Next Steps for Bauko, Mountain Province

As the Phase 1 of the pilot study comes to a successful conclusion, the Mayor of Bauko along with other Municipal Leaders in MDSWD and PNP have called for 2 more batches of surrenderees to be helped by the cleanLIFE Program. While graduates of the first batch will be enriched with further skills training and character building exercises, the next batch will start simultaneously.

## Praises for the cleanLIFE™ Project

*“The cleanLIFE training has been so impressive because our target of rehabilitation was over a 6 months period, but we were able to do it in one and a half months! I am a witness; because every-time there was a healing activity I joined it... and I enjoyed it.”*

- Mayor Abraham Akilit, Bauko, Mountain Province

*“I really observed that the people who underwent this program have really changed, and not only their behavior, but also their day-to-day activities - not only in their hygiene, but in how they will talk and show respect to people they encounter. We really recommend that the cleanLIFE Project will be the one who will cater again for the next batch.”*

- Luis Dangatan, Chief of Police, Bauko, Mountain Province

*<The surrenderees> come to say thank you to us, so maybe that giving of gratitude means a lot to them. The cleanLIFE Program has really transformed not only the physical condition of the surrenderees, but it has been a holistic transformation of these <rehabilitation> 'scholars.' We need the cleanLIFE Program because we are only doing integrated activities, but the cleanLIFE Program is the real meat of this rehabilitation program.*

*I believe and I see that it is needed by the drug surrenders.”*

-Marichu Kuminga, Head of Municipal DSWD

*At first I observed that there were some negative reactions from the <surrenderees>. As time went by, I could see that they enjoyed the <cleanLIFE> activities. I can see that there is a very big transformation as observed <in their> physical and inner behavioral modification.*

- Ruby Docaw, Staff LGU Bauko

*“Before <the cleanLIFE program>, he would be confused and would forget to visit his family. He was angry and irritable. He was also lazy, would sleep a lot and not look for a job.*

*Now he remembers to visit his family and helps out at home. He prays and even tells me to pray. In the past, I would cry a lot because he would blame me for his situation. Now I shed tears of joy because he has changed so much.”*

- R.S.’s Mother, Family member of cleanLIFE Participant

*“Before <the cleanLIFE program>, he would physically abuse his sister and me.*

*He would get easily hurt and was also very sensitive.*

*He would talk disrespectfully to us and not have his meals with us.*

*Now he is more respectful and eats with us.*

*He has also joined the church program and his appearance is better.”*

- A.D.L.’s Mother, Family member of cleanLIFE Participant

*“Before <the cleanLIFE program>, he was angry and would talk back.*

*He was always drunk and not prayerful.*

*Now he is calmer and even washes his own clothes and cooks. I also see him praying.”*

- L.T.’s Mother, Family member of cleanLIFE Participant

*“Before <the cleanLIFE program>, he was lazy and slept a lot.*

*Now he comes to see his kids, help with them and takes care of them.*

*Before he didn’t listen to me, but now he does.*

*I can see that his face is looking better. He has also gained some weight.”*

- A.C.’s Mother, Family member of cleanLIFE Participant

*“I thank you all for healing me. Because of Master Del Pe and you all, I have changed a lot in my life.*

*I learnt a lot of good things for my future well-being and that of my family.*

*Jesus Christ will pay you back. God bless you all. Thank you very much.”*

- R.C.T. Jr, cleanLIFE surrenderer

## Teams and Collaborators

### 1. cleanLIFE Team:

Proponent and Project Leader	Master Del Pe
Senior Trainer and Specialist, Media Director and Chief Editor	Rega Stellar Pe
Senior Trainer and Specialist, Field Manager	Moni Platt
Trainer and Specialist	Beck Pe
Trainer and Specialist	Vic Pe
Trainer and Specialist	Leah Pe
Trainer and Specialist	Anna Pe
Copy Editor	Sunee Kay

### 2. Collaborating LGU Teams:

<i>Program Sponsor</i> Mayor of Bauko, Mountain Province	Hon' Abraham B. Akilit
Chief of Police, Philippine National Police, Bauko, Mountain Province	Luis Dangatan
Head, Municipal DSWD	Marichu Kuminga
LGU Staff and Coordinator	Ruby Doco
LGU Nurse and Facilitator	Leonard Langtiwan
Support Teams	LGU Volunteers

### 3. Accredited Blood Test Laboratory, La Union

# **ABOUT MASTER DEL PE AND MDP FOUNDATION**

## About Master Del Pe and the MDP Foundation

**Master Del Pe** is internationally known as a life mentor and a modern sage, but to his many corporate and non-profit organizations clients, he is a collaborator par excellence and a visionary strategist. He is the designer of the cleanLIFE program and many unique projects of the MDP Foundation aimed at solving social diseases and world problems, like combating vices, poverty consciousness, laziness, loneliness, diabetes, depression, HIV/AIDS, aging, violence and anything that sabotages the environment.

The MDP Foundation is registered as a non-profit organization with tax exemption status in the United States and also in India, but its trainers and specialists serve many causes and projects for under-privileged people around the world.

The Philippines, the birthplace of Master Del Pe, has been his priority since 2015. He even developed a Healing and Longevity Resort called MDP Village in his hometown, Cervantes, Ilocos Sur to demonstrate his sincere effort to contribute back to his motherland. He believes in the high potential of the Filipino talent and often says that the Philippines can become a global player and a game changer for the development of the New World. Master Del Pe wants to share his new tool-kits and visionary strategies which integrate the best of Eastern Wisdom and Western Knowledge. He travelled around the world to over 100 countries and studied world cultures, philosophies, religions and business models. This wealth of experience and information is brought with him in his homecoming. He says that he brings the world with him to the Philippines so that even those who did not travel outside the Philippines can “drink from this fountain of knowledge almost for free.”

Author of 8 published books and many in the process of being released, he is the founder and international president of 3 organizations namely: BElife Institute for Higher Consciousness (BIHC), American Institute for Leadership Advancement (AILA) and the MDP Foundation. He also created and published dozens of CDs and DVDs for personal development and self-mastery.

One of the most important milestones that brought much of his wisdom and spiritual leadership was his personal mentoring by 4 enlightened masters from India, China, Korea and the Philippines. His training by some of the advanced Yogis in the Indian-Tibetan-Nepalese Himalayan Mountains is also on the top of his list of why he got enlightened at a breakthrough speed.

Master Del Pe mastered Martial Arts and became a chief instructor in Japanese Karate before he was 25. He also became an international expert in the 12 styles of meditation and 8 types of yoga before he authored his bestselling book, *Hidden Dangers of Meditation and Yoga*. One of the common titles given to Master Del Pe by his patients internationally is *The Miracle Healer*, as he produced many miraculous healings from healing HIV/AIDS patients in South Africa to Cancer patients in India and USA, and even helped crippled people to walk in

many countries. To him, these are all scientific processes using his BEwell Science, the healing science modality he founded with at least 27 intellectual properties and copyrights under his name.

Master Del Pe believes in the new president Rodrigo Duterte's vision of the new Philippines and is inspired by his *War on Drugs* mission. That is why, the Master has dedicated his team and donated much of his time and trips to Bauko, Mountain Province from Cervantes, Ilocos Sur every week in order to prove that cleanLIFE really works to help the surrenderees faster than normal. He collaborated with the Mayor of Bauko, Dr. Abraham B. Akilit to rehabilitate the first batch of surrenderees to be helped. This resulted in an excellent outcome with 54 graduates out of the 58 enrolled. Blood tests proved to be a great success and the team of the Municipal Department of Social Welfare and the Philippine National Police in Bauko along with the cleanLIFE team unanimously concluded the program to be the tip of the arrow of the rehabilitation process in Bauko and eventually other rehabilitation locations in the Philippines.

**Master Del Pe,**  
*Humanitarian and Social Transformer,  
Founder of MDP Foundation and global proponent  
of the cleanLIFE program*

## Other Programs by the MDP Foundation

The MDP Foundation's service as already touched 45 countries around the world with its programs.

1. **wholeEARTH Care Program:**  
*to care for the planet and ecosystem as a living organism applying the universal principles and wisdom*
2. **World TalentSHARE & World WisdomBANK Program:**  
*to pool the skills of talented and experienced people, including retirees*
3. **wholeLIFE Education Program:**  
*training to educate the human being in the child and awaken the power of their Soul*
4. **Youth Empowerment Program:**  
*empowerment of children and youth to maximize their potential*
5. **Elderly Empowerment Program:**  
*servicing the needs of the older people, especially those who are sick, in pain or downtrodden.*
6. **cleanLIFE Program:**  
*an anti-vice and anti-addiction program using BEwell Science and PsychoEnergetics*
7. **goodLIFE Program:**  
*an anti-laziness program applying Aquarian Martial Arts-Yoga Science (AMAYS)*
8. **wellLIFE Program:**  
*an anti-disease program using BEwell Science*
9. **harmonyLIFE Program:**  
*an anti-violence program using meditation and BEwell Science energy medicine*
10. **enrichedLIFE Program:**  
*an anti-poverty consciousness program*
11. **HIV/AIDS Research Program (HARP):**  
*a program that brings great hope to HIV/AIDS sufferers*
12. **Compassion Fatigue Solutions Program:**  
*providing prevention and treatment of compassion fatigue among caregivers*

# THE ROAD AHEAD

# The Road Ahead for cleanLIFE™

The plan of Master Del Pe regarding the cleanLIFE business model for the Philippines follows 4 main prongs:

## **1. Group rehabilitation:**

Surrenderedees in groups of 50 to 100 can be serviced in a residential format. A team of 3 to 4 cleanLIFE specialists can manage the group with the help of the local staff or volunteers from the Department of Social Welfare (DSW) / Department of Health (DOH) and the Philippine National Police (PNP). The duration of rehabilitation for surrenderedees residing in rehabilitation camps can range from 1.5 months to 6 months, depending on whether the group is classified as mild, moderate or high risk. This is outsourced through BElife Enterprises and Master Del Pe oversees or participates in the actual healing and training schedules.

## **2. Out-patient or non-resident clients:**

Surrenderedees or any citizens accepted for the cleanLIFE Program will come to our facility or official government rehabilitation center and receive the cleanLIFE sessions with a group. Clients who prefer to do it alone will be offered a different price budget. Out-patient services can also be extended online to any person who cannot have a leave of absence from work or from their duties.

## **3. Retreat Setting in the BElife Enterprises facility**

This is a different ball game. The client can come alone and follow the complete cleanLIFE curriculum with a team of Specialists and Master Del Pe. The duration can be from a month to 2 months, depending on the severity of the addiction and their side-effects. A group of friends or relatives with addiction can also come together. The budget for this program will be discounted at a group rate.

## **4. Certification of cleanLIFE Specialists and Implementers**

One of the unique features of cleanLIFE is that Master Del Pe can train and certify Specialists under his USA-based institute, BElife Institute for Higher Consciousness (BIHC). This process will take 6 to 8 months for one to become a professional specialist. A 3-month apprenticeship program is included in the certification. To be a Senior Specialist, one year is added to the first level certification. A Senior Specialist is also trained to be the head of the cleanLIFE program implementation in any location. This training and certification can even be extended to different professionals from the DOH and DSW to equip them with a new skill applying the best practices of Energy Medicine.
